- price / per person: 15 EUR

Wool is a versatile material, allowing you to create almost anything you want using felting technique, but it is also calming, encourages mindfulness and focus.

The workshops are led by Tatjana Kostrenčić Janković, a passionate creative with experience in modeling clay and wool. She regularly organizes workshops for children and wool felting workshops for both children and adults especially to raise awareness of the problem of recycling this valuable material that often becomes waste in our areas.
